

Robert G. Sims [Glenn]

President, ASW Energy Services

Robert “Glenn” Sims was appointed President of ASW Energy Services in August 2014. Previously, Sims held the position of Chief Operating Officer for ASW Global, LLC. Glenn maintains an impressive record in the implementation of global procurement and supply chain management solutions. As COO, Sims core responsibilities focused around leading the strategic development of all Supply Chain Services for client customization including outsourcing services, emerging market sourcing and enterprise cost modeling.

Glenn joined ASW Global from The Ford Motor Company where he was a Director for the Vehicle Operations Supplier Development Team. In that position, Sims led the strategic implementation and execution to partner with 15 module suppliers for new model programs setting up six new facilities, planning and verifying tooling capacity, and implementing an enterprise cost model for reaching targets based on specific customer speculations.

Sims graduated from Mansfield State University with a Bachelors of Science in Political Science and received a Masters of Science in International Logistics from The Georgia Institute of Technology in Atlanta. He has also attended Executive Development Programs at the Kellogg School of Management, Northwestern University, FUQUA School of Business and Duke University. Glenn has held a variety of positions in Manufacturing, Quality Control, Industrial Engineering, Sales and Marketing, System Engineering and Material Planning, and Logistics Management. He has also been featured speaking at international trade forums in China, Hong Kong, U.S.A. and Europe sharing his experiences, processes, and methods for incorporating Lean Principles and Six Sigma Methodologies to engineer Global Supply Chain solutions.

Sims continues to excel as a corporate leader in contributing to the design, development, and execution of ASW Global’s Operational Excellence plan. He actively promotes continuous improvement in alignment with ASW’s Core Competencies in order to support future growth relating to increased profitability, customer satisfaction, and supplier relationships.
